

Conway 1968 [3]

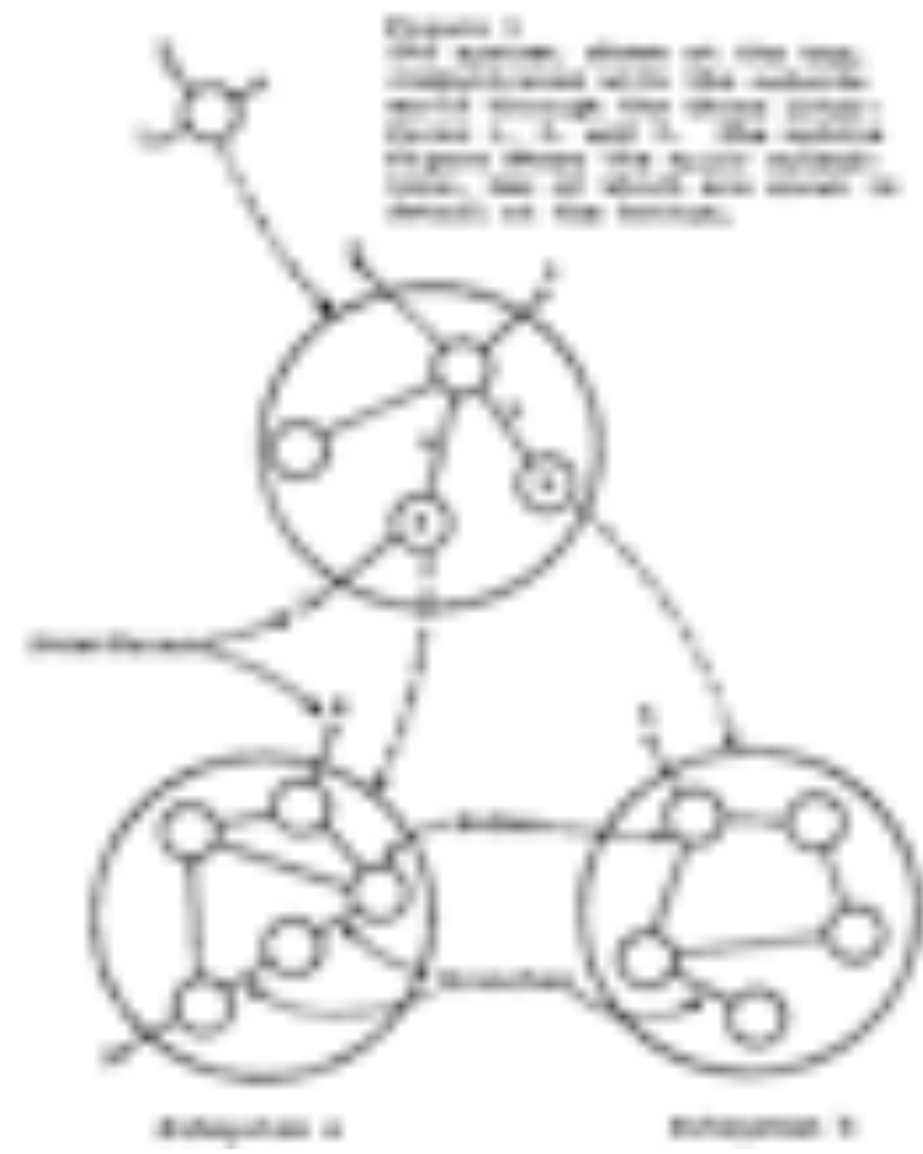

Figure 1
The diagram shows the structure of the tree, with the root node at the top left, and the central node at the bottom right. The root node is labeled with "1" and "2", and the central node is labeled with "a" and "b". The root node is connected to the central node via a dashed arrow labeled "1". The central node is connected to two sub-nodes labeled "4" and "5" via dashed arrows labeled "4" and "5".
